

Place Tip of  
Toe Here

Childrens/Mens Length

Womens Length

### How to use the Size-O-Matic

- 1.) Open the file using Adobe Acrobat. The file is 8"x10.5" and should be printed on a printer capable of printing on a standard 8.5"x11" sheet of paper.
- 2.) To print, press the print button on the toolbar or select 'Print' from the File menu. In the print dialog box, be sure that '**Shrink oversized pages to paper size**' and '**Expand small pages to paper size**' are **NOT Checked!** Press 'OK' to print the file.
- 3.) Place the printout on the floor. Stand upright and place your bare foot on the chart. Line up the tip of your longest toe to the thick black line. Read the size that best correlates with the back of your heel. Please note that the numbers correlate with the line below it. Children and Men use the long row; Women please use the shorter row to the right. It is a good idea to measure both feet.
